

Specifications

Electrical Specifications @ 23°C unless otherwise noted

DC Resistance (@20°C):	0.23Ω ±20%, 1-2
Inductance:	4.9 μH ±25%, 100 kHz, 100mVac, 1-2, Ls
Saturation current*:	850 mA ±20%
Operating Temperature:	-55 to +250°C

* Saturation Current is the current that results in a 35% decrease in inductance over the inductance at 100mA.

Specifications subject to change without notice.

Dimensions in inches [millimeters]. Tolerance +/- .005" [0.13] mm
